The **DT Heritage** Difference

Celebrating 20 Years of Digitization Excellence

DT Heritage has spent two decades leading the industry in high-quality imaging technology and best practices. This pursuit has not only encompassed the hardware innovations we've consistently brought to market, but also the knowledge, training, and new practices we've shared with the digitization community through our constant research, development, and focus.

Download Our Brochure

Quality

Whether it's our digitization solutions producing Preservation Digital Objects (PDOs) that meet or exceed all industry standards, the detailed engineering, build, and ergonomics of our systems, or the concierge-level service we provide to all of our

Efficiency

The combination of our hardware, software, AI automation and vast experience has allowed us to develop industry-best workflows to capture high-quality images at incredibly efficient rates and at scale, whether it's film, flat art, bound material, or 3d collections.

customers, DT's reputation for quality and service is unmatched.

Expertise

Our technical staff has decades of experience in heritage digitization, and are committed to the preservation and dissemination of our shared heritage. We partner with our clients to understand their problems and help specify, design, manufacture, procure, set up, use, and maintain the world's best digitization solutions.

Trust

DT's commitment to quality has earned the trust of the world's top organizations. From The Getty and The Smithsonian Institution to The National Geographic Society, General Motors, and the Library of Congress, the most discerning digitization departments rely on DT to ensure the safety and fidelity of their digital archives.
